

HUMIDITY TEST CHAMBERS

Series KBF | Series KBF P | Series KBF LQC | Humidity test chambers with large temperature / humidity range / ICH-compliant light source and light dose control

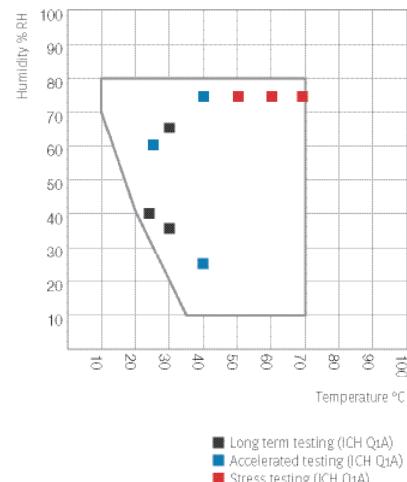

Model KBF 720

Sizes 4, 9, 25, 36 cu.ft.

FEATURES:

- Long-term stability, accelerated and stress testing conditions for testing in line with ICH Q1A
- Flexible water and waste water management at any location using the connection to the domestic water supply or an optional external water supply set
- Patented, long-life steam humidifying system
- TFT resistive touch color display
- All fixtures – including the entire inner chamber – are made of stainless steel
- KBF P/KBF LQC
- Long-term stability, accelerated and stress testing conditions for testing in line with ICH Q1A and Q1B
- Variable, positionable illumination cassettes
- Temperature/humidity/light simulation in one chamber
- KBF LQC Series with independent light-dose control of UV-A and visible light with spherical sensors

TEMPERATURE-HUMIDITY CHART WITH ICH CHECK-POINTS | KBF 115, KBF 240, KBF 720, KBF 1020

Serie KBF-S Solid.Line | Humidity test chambers with large temperature / humidity range

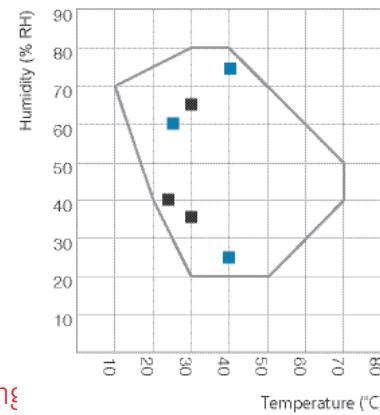

Model KBF-S 240

Sizes 9, 25 cu.ft.

FEATURES:

- New Solid.Line range - the ideal addition to BINDER's popular premium products
- Solid product design with great value for money
- Long-term stability and accelerated testing conditions for testing in line with ICH Q1A
- Water supply via container
- Well-proven atmosphere conditioning and distribution
- Simple but efficient controller

Series KMF | Humidity test chambers with expanded temperature / humidity range

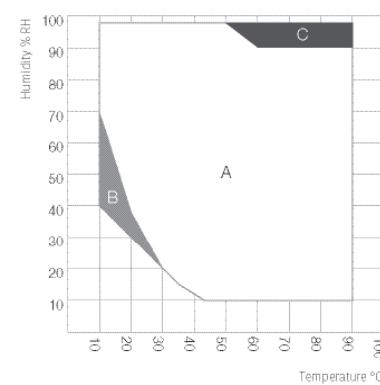

Model KMF 240

Sizes 4, 9, 25 cu.ft.

FEATURES:

- Stable test conditions even at 85 °C / 85% RH
- Flexible water and waste water management at any location using the connection to the domestic water supply or an optional external water supply set
- Long-term operational stability even under full load
- Patented, long-life steam humidifying system
- TFT resistive touch color display
- All fixtures – including the entire inner chamber – are made of stainless steel

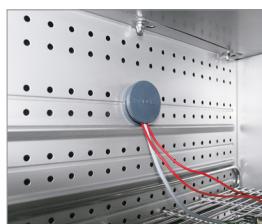

A: Guaranteed condensation-free range
B: Time-limited operation (max. 24 hours)
C: Condensation in the inner chamber may be possible
