

PCR Prep Made Easier

PCR prep is more than just primers, enzymes, and reagents. SP Bel-Art provides the tools necessary to make sure your PCR prep workflow is efficient and organized.

Sanitation

Safety Cutter

Easily cut labmat without cutting yourself.

Labmat Bench Liner Sheets

Keep integrity of your samples by limiting and absorbing spills and contamination.

Lab Coat/Apron Hook

Easy access to a lab coat at each work station.

Trigger Sprayer With 53mm Adapter

Turn safety-labeled wash bottles into convenient spray bottles.

GHS Labeled, Wide Mouth, Safety-Vented, 500ml Bleach Wash Bottle

Prevent contamination - keep 10% bleach solution properly marked and close at hand.

Roxy M™ Repeating Pipettor

Precise, accurate, and reliable repetitive pipetting.

Thawing

Microcentrifuge Tube Openers

One-handed MCT and PCR tube opening without the need to change gloves between samples.

Microcentrifuge Tube Ice/Rack

Keep reagents, enzymes and buffers cold and accessible during prep work.

Magic Touch 2 Icewares

Keep enzymes, buffers, nucleotides cold during prepwork.

Mixing

Poxygrid Bench-Top Biohazard Bag Holder Kit

Compact and easy pipette tip disposal.

6 Place Pipette Stand

Stores Pipettes for easy access.

Compact PCR Storage Racks

Color-code your sample preps.

Bel-Art Pens

Write with ease on tape or paper, wet or dry!

Tech Pens

Ensure ink won't rub off when storing samples from -46° to 65°C.

Reagent and Sample Storage

Write-On Label Tape & Dispenser

Keep track of samples with labels that stay adhered at -20°C.

Frio Temp Calibrated Dual Zone Electronic Verification Thermometer

Ensure PCR reagents are always stored at the correct temperature.

PCR Tube Freezer Storage Box

Maximize storage space and efficiency, even at low temperatures.

Mini Cryo Boxes

Organized cold storage from freezer to benchtop.

80-Well Reversible PCR and Microcentrifuge Tube Racks

Conveniently holds PCR or MCT tubes while mixing.
